

ABHISHEK VERMA

Full-Stack Developer

Hello I'm **Abhishek** ! A dedicated full-stack developer from India. I possess a fervent passion for web development. My specialization lies in designing and developing dynamic web applications that seamlessly integrate with multiple APIs and databases. I firmly believe in making technology work seamlessly to create exceptional user experiences. "I'm all about making technology work seamlessly. Let's make something awesome together! 😊" Additionally, I thrive in collaborative environments where everyone's opinions and ideas are valued. Outside of coding, I enjoy playing chess and cricket.

Bachelor of Technology (B.Tech) INDIAN INSTITUTE OF INFORMATION TECHNOLOGY BHAGALPUR

12/2021 - 07/2025

Bhagalpur, Bihar

Branch

- Electronics and Communication Engineering (ECE)

Higher Secondary Education MAHAVIR INTER COLLEGE

04/2018 - 05/2020

Lucknow, Uttar Pradesh

Stream

- Science

PERSONAL PROJECTS

BlockbusterBuddy (11/2023 - 01/2024)

- This project is designed to provide detailed information about the latest movies and TV shows. This Project showcases the newest movies and TV shows, including information about release dates, trailers, cast, crew, genres, and ratings. Users can easily browse through upcoming releases and recently premiered titles.
- [Project Link](#)

Abhishek's Gallery (02/2024 - 03/2024)

- An image gallery application that prioritized efficient search and sorting functionalities. Implemented a user-friendly interface enabling users to search for images using keywords and sorted them by date or popularity. Additionally, seamlessly integrated a download feature, allowing users to access and save images quickly.
